I designed a simple snap-fit case for the XIAO 1.47-inch IPS Touch Display. The case also has space for a battery. I used a 200mAh 501530P LiPo battery to power the module, which fits inside the enclosure.

You can buy the module from the link below:

- [XIAO 1.47" IPS Touch Display\(nRF52840\)](#)
- [XIAO 1.47" IPS Touch Display\(ESP32-S3\)](#)
